HIGH WAVE ALERT ISSUED BY INCOIS:

TAMILNADU: It is forecasted that sea will be rough near shore and the low lying areas (Kanyakumari, Thoothukudi, Ramanathapuram) may experience surges (gushing of sea water into these areas) intermittently till 23:30 hours (IST) of 11-01-2021 due to the combined effect of high period (17-20 sec) swell waves, having 1.0-1.5 m height and Spring Tides.

KERALA: It is forecasted that sea will be rough near shore and the low lying areas (Kollam, Alappuzha, Kochi, Ponnani, Kozhikode, Kannur, Kasargod) may experience surges (gushing of sea water into these areas) intermittently till 23:30 hours (IST) of 11-01-2021 due to the combined effect of high period (17-20 sec) swell waves, having 1.0-1.6 m height and Spring Tides.

LAKSHADWEEP: It is forecasted that sea will be rough near shore and the low lying areas (Amini, Kavaratti and Kiltan Islands) may experience surges (gushing of sea water into these areas) intermittently during till 23:30 hours (IST) of 11-01-2021 due to the combined effect of high period (17-20 sec) swell waves, having 1.0-1.6 m height and Spring Tides.

KARNATAKA: It is forecasted that sea will be rough near shore and the low lying areas (Udupi, Murudeswar, Gokarna, Mashem) may experience surges (gushing of sea water into these areas) intermittently till 23:30 hours (IST) of 11-01-2021 due to the combined effect of high period (17-20 sec) swell waves, having 1.0-1.5 m height and Spring Tides.
